Agryo Job description - As part of the Digital Skills for Youth Program coordinated by Communautique, Agryo is looking for Full Stack Developer position to be filled.

Agryo is a risk intelligence provider for agriculture operations which enables the 500 million underserved farming families around the globe to access financial services by the combination of data and AI.

If you want to be part of a global team of multicultural and multi locations to solve the biggest challenge in our times, you must be part of the Agryo team!

The work will remotely and will be vinculated to the Agryo in Montreal, Quebec, Canada.

The starting date is **July 10th 2021**.

The ending date is **March 31st 2022**.

The intern will have support from Communautique as part of the training process.

Must have:

- 1+ years of experience in software development
- Knowledge in AWS cloud services work and deployment
- Outstanding experience in Go (Golang) and Node.js
- Outstanding experience in javascript and Node.js
- Experience with React Framework
- Experience with RESTful web services
- Experience with relational and graph databases
- Write well designed, testable, efficient code with complete documentation
- A passion and curiosity for creating and building things
- Immediate availability to start (in July-2021)
- Have ability to work in agile process of development
- Experience with remote team work
- Ability to follow a change management process with segregation of duties

Nice to have:

- Familiar/involved with geographic information systems (GIS)

- Develop microservices and serverless applications
- Experience in development in java
- Experience working within a continuous integration and deployment (CI/CD) environment
- Experience working with a front end JavaScript framework React
- Portuguese or Spanish speak person

Personal:

- Independent, self-motivated
- Fluent in English, written and spoken
- Proven track record of always learning and growing
- Proactive attitude
- Possess a spirit of generosity

Perks:

- Work with a global team of experts in data science, finance and digital infrastructure
- Be part of a team building solutions for the 500 million farming families around the globe

The role of the position is to participate in the development and improvement of the agryo APIs' and work with agryo clients to integrate the services into their infrastructure.

Start - July 2021

End - March - 2022

Commitment - 35 hours per week

Hourly rate - CAD 17 per hour

The Intern must:

- Be between 15 and 30 years old at the beginning of the internship
- Have completed post-secondary studies
- Have the legal right to work in Canada
- Be a Canadian citizen, a permanent resident or a person with refugee status in Canada
- Not receive employment insurance (EI) during the internship
- Self-assess as underemployed, that is, employed below their level of education or holding a part-time job
- Not have already participated in a digital skills for youth program.

To apply to the position the candidate can start by sending the Curriculum to agryo@agryo.com with the title "Agryo Full Stack – YOUR NAME".
